

## Consulting

### Description

BDU helps individuals and companies systematically analyze their business, as well as develop effective plans and processes to drive results. Our Sales Specialists help teams analyze and structure key aspects of their sales organizations to ensure repeatable and dependable results by:

- Understanding and measuring the key metrics.
- Structuring the sales process to increase close ratios.
- Establishing blueprints and expectations for success.
- Developing customized training and development programs.
- On boarding new associates quickly and effectively to maximize results in minimum amounts of time.
- Developing sales structure with optimal spans of control.
- Implementing tracking and accountability programs to ensure ways to inspect expectations.
- Establishing highly effective incentive and recognition programs to drive results.
